Bathroom Fixtures

AQUANT

CONTEMPORARY BATHROOMS

OUR STORY

In 2006, Aquant started providing more than just basic sanitary ware and bathroom fixtures in the Indian market by actively seeking out exclusive and innovative products.

Our founders realized the need for exclusive, fashion forward products in the world of bath design. Thus began the progression of traveling the world to visit factories for the latest designs, quality materials and workmanship. Aquant provides comprehensive and integrated collections of Sanitaryware, Faucets, Bathroom Fittings, & Artisanal Wash Basins which have been developed to meet the needs of all our discerning customers.

Within a decade, the brand had become a trusted name and expanded to over 300 dealers with presence in 55+ cities and towns across India. Our energetic team is passionate about bathroom design and enthusiastic about helping Architects, Interior Designers & Private Clients find bathroom products which suit their requirement and budget.

WHAT SETS US APART

WORLD-CLASS OEM PARTNERS

In a globalized world, it is important to choose the right supply partners. Our unrivaled supply chain capabilities give us the ability to design products in response to latest global trends and bring them to India way ahead of our competition.

We source the raw materials, internal components & finished products of our expansive product range from 60+ World-Class OEM companies in Italy, France, Hungary, Turkey, China & Indonesia. Each manufacturer is selected only after meticulous factory and product quality inspections.

STRINGENT QUALITY CONTROL

Aquant employs a large Quality Control (QC) team at manufacturing locations. Products must conform to strict quality standards. Every piece of Aquant Sanitary ware is inspected for pin-holes, micro-cracks & color consistency. Each Bathroom Fitting is tested under 0.75MPa air pressure and 1.6MPa water pressure to guarantee no leakage.

10 YEAR WARRANTY

Aquant has been built upon trust and partnerships with its client base. Quality and service have always been kept at the heart of the company's value proposition.

We are confident that our products will give you many years of trouble-free operation. However, for peace of mind, all our products are covered by warranties up to 10-Years. Our Team is passionate about delivering Exceptional Customer Service. We have a dedicated Toll-Free Customer Helpline backed by Service-Centres across the country.

BEST QUALITY INTERNAL PARTS FROM EUROPE

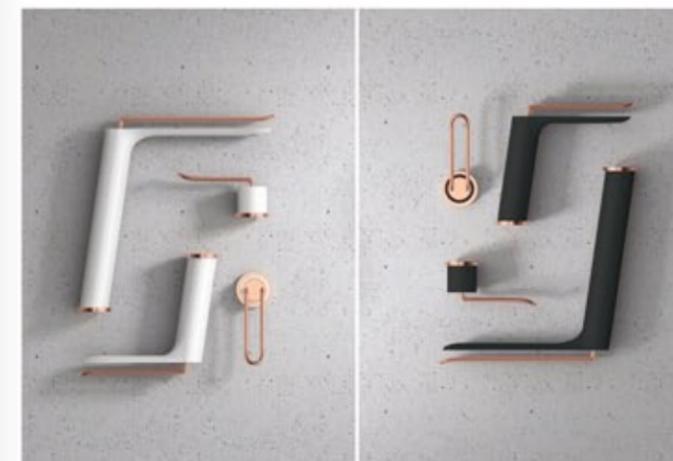

Single-lever & Thermostatic cartridges along with Aerators form the heart of any faucet. Aquant sources these parts from the best manufacturers in Europe - Kerox of Hungary (Single-Lever Cartridge), Vernet of France (Thermostatic Cartridge) & Neoparl of Switzerland (Aerators). Each faucet handle passes the open-&-close test for 500,000 operations.

LUXURY MADE AFFORDABLE

Aquant is on a mission to bring luxurious products to India at affordable price points.

We supply directly to limited showrooms across India without employing distributors; cutting out middle-men leads to substantial cost-savings which are passed to our customers. Cost-savings are also gained through our efficient adoption of global lean management techniques, latest warehouse management systems and advanced supply-chain capabilities.

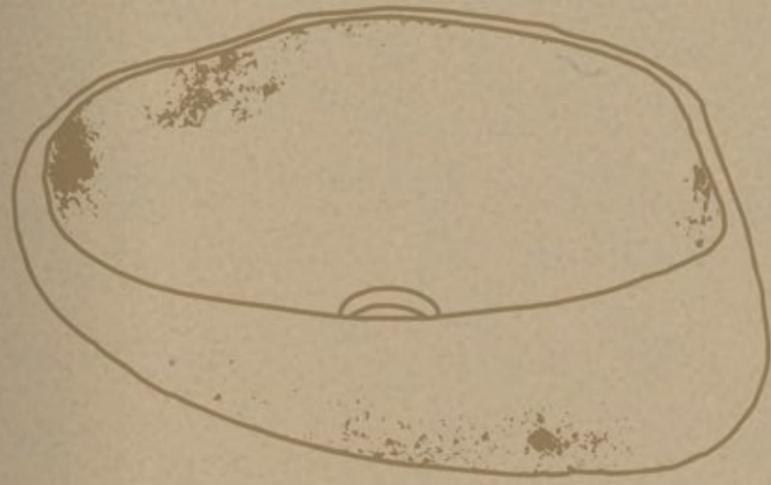

AWARD WINNING DESIGN

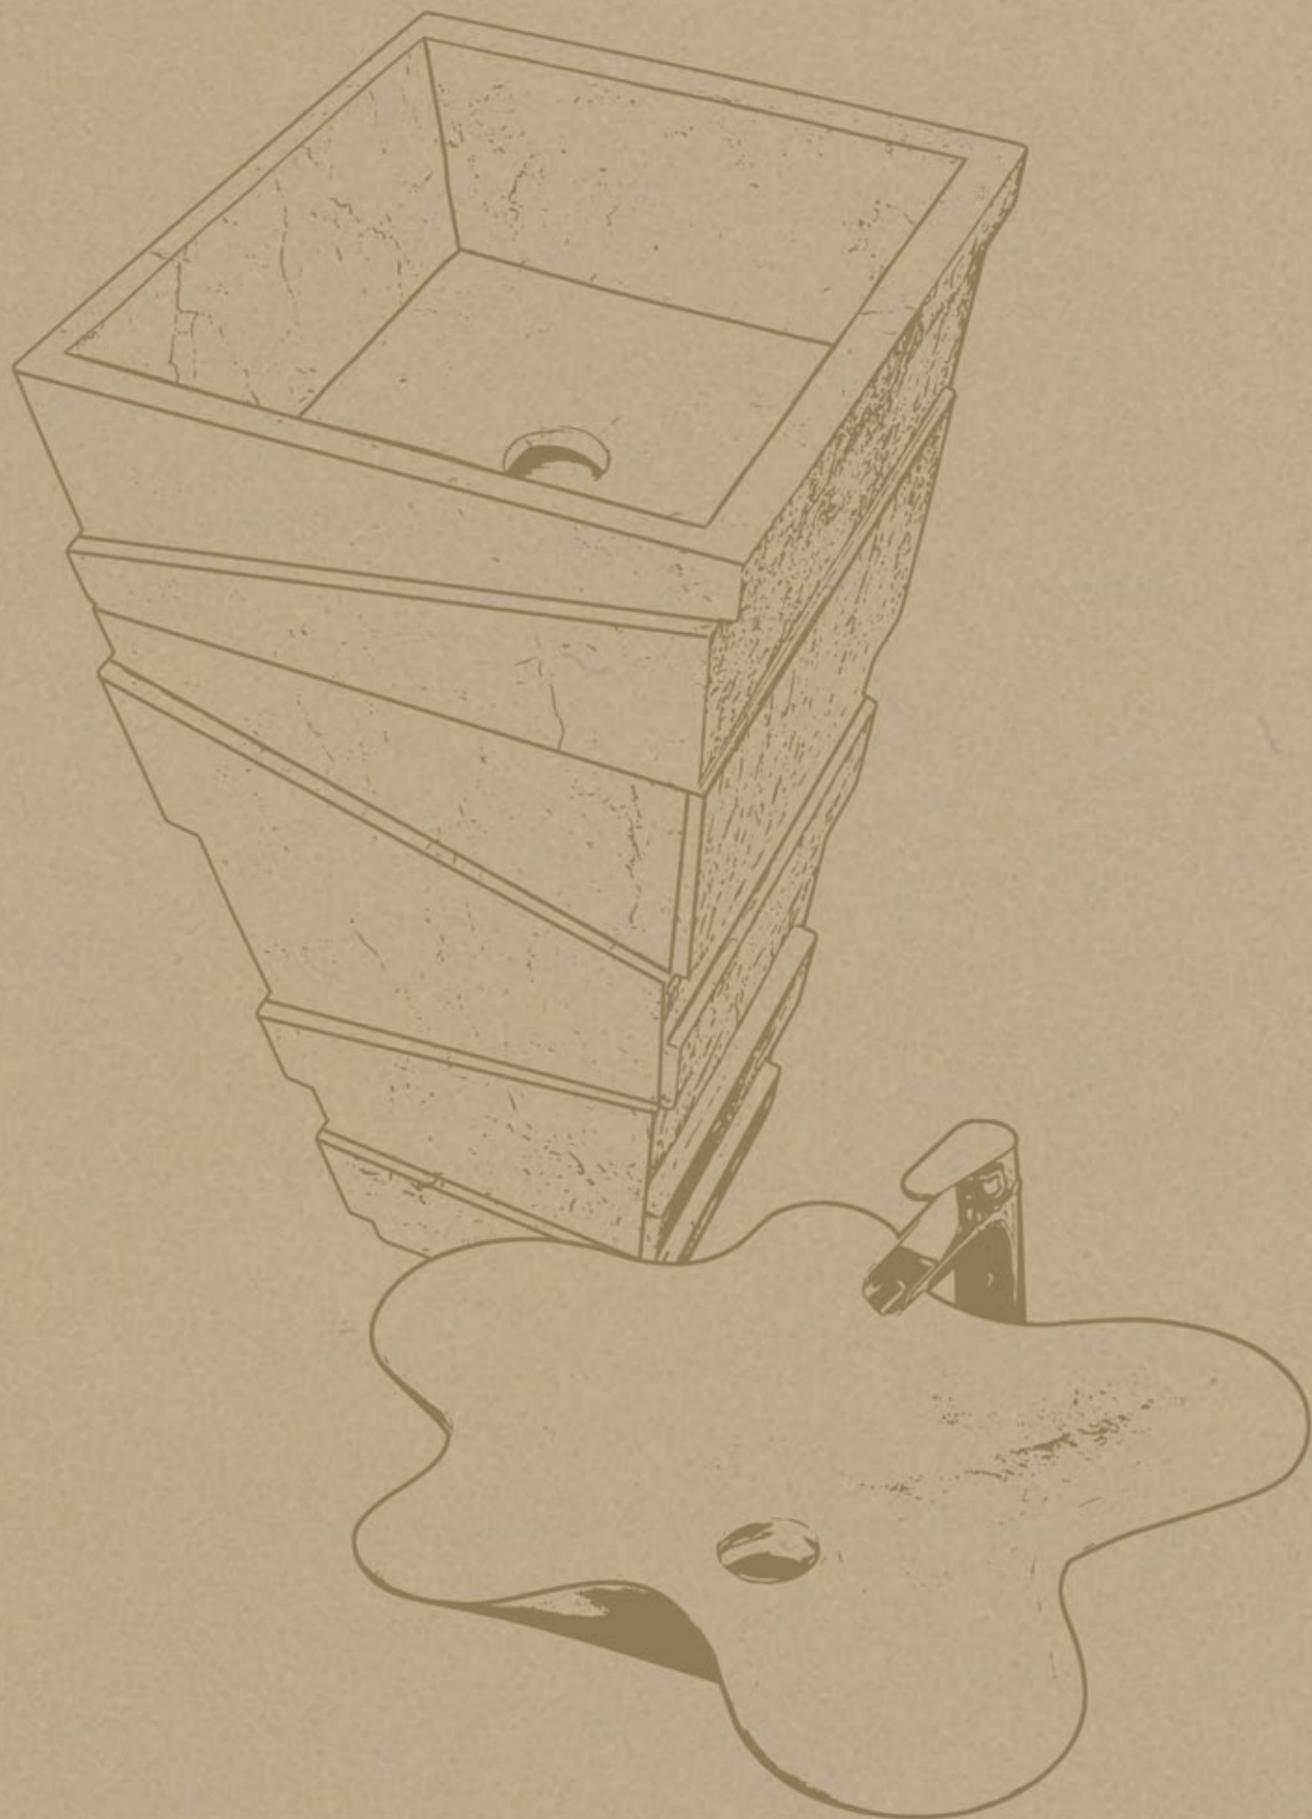

Many products in Aquant's portfolio are winners of prestigious international design awards such as Designpreis Deutschland, Red Dot & Red Star. The company is quick to identify market trends & believes in extensively collaborating with its international manufacturing partners to design and develop products which combine exquisite style with state-of-the-art technology, unparalleled performance & the highest quality.

Artisanal
Collection

ARTISANAL COLLECTION 2023

A commitment to innovation and excellence in design is the core of our business strategy. Keeping up with this commitment, we dedicate a lot of time and energy to researching new materials and the design and development of bathroom pieces that offer new possibilities to users. When an idea is born, we begin a process of experimentation in which we play with colours, designs, and materials. By thinking about concepts from countless angles, an idea takes shape, making every washbasin a work of art.

We give you the opportunity to bring artisan craftsmanship to your space. Create a lasting impression in your bathrooms, powder rooms, and dining areas by adding washbasins in materials such as Marble, Onyx, Concrete, and Stainless Steel. Our extensive collection of washbasins in alternate materials is loved by eminent Architects, Interior Designers, and Private Clients.

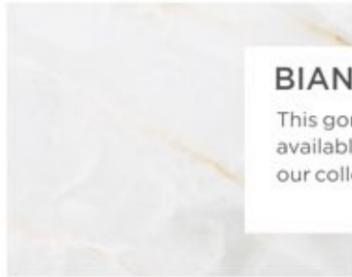

MATERIALS

ONYX

HONEY ONYX (IRAN)

Honey Onyx imported from Iran offers a radiant and luxurious dimension to our stone basin assortment. Wash Basins made of Honey Onyx are characterized by warmth and incredible depth of color. This stone has a layered patterning that is translucent, luminous and very hard. This material can be backlit to create a dramatic effect.

BIANCO ONYX (ITALY)

This gorgeous White Onyx which is mined in Tuscany, Italy is one of the most luminescent available and is highly translucent. It is the rarest and most expensive natural material in our collection. Made with a beautiful onyx with a cloudy, contemplative mood.

MARBLE

DARK EMPERADOR MARBLE (SPAIN)

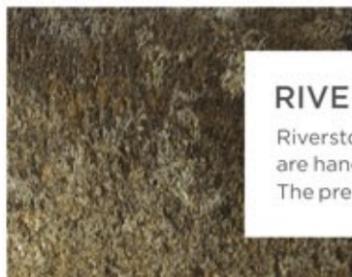

This marble is extracted in the region of Murcia, in the south-east of Spain and has a dark to medium brown color with cobweb-like patterns of golden intersecting veins. These veins create a subtle, three-dimensional texture which gives wash basins made from Dark Emperador marble an intriguing depth in their appearance.

CREAM TRAVERTINE MARBLE (INDONESIA)

This beige/cream marble is the most stable natural stone material that we use for our range. Mined near Bali in Indonesia, the softness of the beige symbolizes tranquility, which is the essence of our stone products. Due to the material's economic price point, wash basins made of Travertine Marble are perfect for projects with budget constraints.

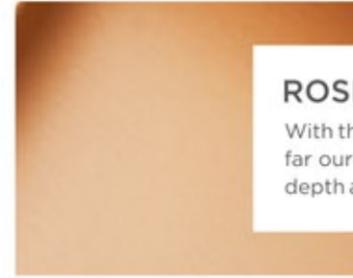

OTHER

RIVER STONE

Riverstone is by far the strongest material in our portfolio. Since Riverstone washbasins are hand-carved from naturally occurring stones, each basin has a unique shape and size. The preferred choice for projects with a natural rustic theme.

STAINLESS STEEL

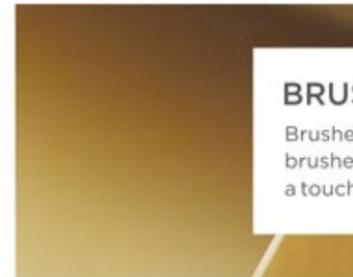

ROSE GOLD

With the trend for special finishes currently dominating bathroom design, Rose Gold is by far our best-loved finish. Aquant's unique Rose Gold tone adds just the right amount of depth and luxury to any space.

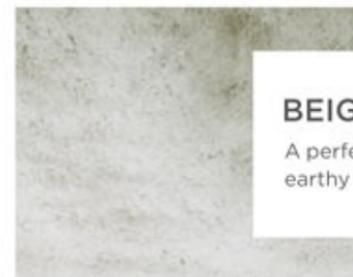

GRAPHITE GREY

Graphite Grey is a sophisticated and modern option which offers a great contrast to natural tiles and lighter hues. Many designers and passionate homeowners have shown great interest in playing with the juxtaposition of this finish.

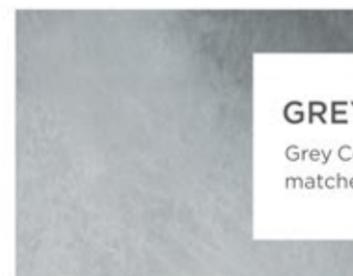

BRUSHED GOLD

Brushed Gold offers a modern take on traditional bright brass with a sophisticated brushed-over look. With its subtle tone and slight shimmering effect, Brushed Gold adds a touch of luxury to any bathroom or powder room setting.

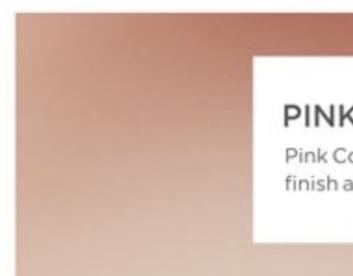

BEIGE CONCRETE

A perfect addition to timeless bathroom & powder room designs, Beige Concrete has an earthy tone which complements rustic design themes.

GREY CONCRETE

Grey Concrete complements the current design thinking in the bathroom and effortlessly matches any contemporary design theme or material palette.

PINK CONCRETE

Pink Concrete is a bold design choice that can infuse vibrancy into any design palette. The finish adds a dramatic, happy feel to any bathroom or powder room design.

CONCRETE

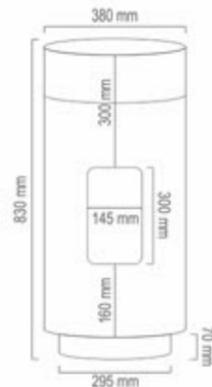

INOX STEEL WASH BASINS

Available in three stunning finishes: Rose Gold, Graphite Grey, and Brushed Gold our newly launched Inox Steel range of wash basins are made from high-quality 304-Grade Stainless Steel. The material provides the wash basins with rich colours and long-lasting shine. The understated elegance of the material and the visual brilliance of our designs characterized by slim lines make our Stainless Steel basins strikingly beautiful additions to your decor.

MICRO-CONCRETE WASH BASINS

Our trendiest new launch, these basins are made with the finest Micro-Concrete and have an extremely high level of water tolerance and stain resistance. We have made concrete lighter and stronger, enabling us to create shapes with thin-lines and curves. Each basin is sealed with a very effective, deep penetrating sealing system to allow a real-world function. A perfect addition to contemporary bathroom & powder room designs.

STONE COUNTER-TOP WASH BASINS

Millions of years old, Marble & Onyx are history's more elegant creations. We source our rare stones from some of the world's finest quarries in countries such as Italy, Spain, Iran and Indonesia. A natural stone block with unique characteristics is transformed to create a precious wash basin that adds a touch of elegance to your bathroom design. Every washbasin in this collection is hand-made by highly skilled artisans from Bali, giving an exclusive and unrepeatable value to each piece.

RIVER STONE WASH BASINS

Riverstone is by far the heaviest and strongest material in our natural stone basin portfolio. Since Riverstone washbasins are hand-carved from unique naturally occurring stones, each basin has a variation in its shape, size, & colour. The preferred choice for projects with a natural rustic theme, washbasins in Riverstone are very economically priced.

Sanitary Ware
Collection

SANITARY WARE COLLECTION 2023

The needs and desires of the modern family strongly influence our design-thinking. The result is a collection of products that are not only stylish and contemporary but also highly adaptable and practical.

Since Washbasins & Toilets are the most habitually used items in the bathroom, we aim to combine maximum functionality with unmatched design aesthetics to suit your interior design. Our latest Sanitaryware Collection is based on a theme of soft minimalism. Strong, simple lines are beautifully balanced by soft, sculptural edges.

The introduction of new finishes such as Matt Cashmere, Matt Mint, Ash Grey, Matt Grey, Crocodile Leather Black, Gold, Rose Gold, and Platinum to our Sanitary ware collection adds a new dimension to our carefully crafted design schemes. In addition to aesthetics, we want our customers to have the most advanced bathrooms. Our Rimless Flushing design, 'Swirl' Flushing system, minimalistic 'Blind' Installation, and Slim UF soft-close toilet seats are some of the new technologies available in our Toilet collections.

The depth of our range in size, colour, finish, & functionality makes our sanitary ware portfolio an ideal choice for Architects, Interior Designers, and Private Clients.

THE LATEST IN TOILET TECHNOLOGY

'TORNADO-SWIRL' FLUSHING

A powerful new flushing system, the 'Swirl Flush' is optimized for effectively cleaning the toilet bowl. This technology enables a more silent flushing with a tornado-like action generating a strong flushing momentum.

'RIMLESS' DESIGN

A 'Rimless' WC has a unique flushing system and its design effectively prevents dirt and deposits from accumulating inside the toilet bowl. Since the toilet has no rims, there are no hidden cavities where dirt can gather. This makes the inner surface much easier to clean compared to a conventional toilet.

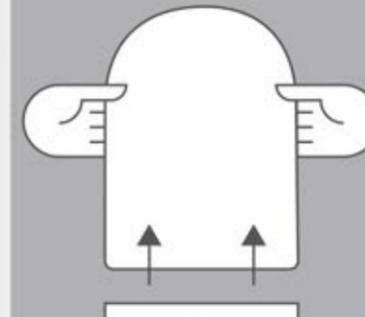

'BLIND INSTALLATION' DESIGN

Blind Installation is a unique hidden fixation system for Toilets. The WC is attached to the structure using the clamping holes of the toilet seat. This leaves the side-walls of the WC without any fixing holes. This not only makes the toilet design aesthetically pleasing but also makes the toilet easy to maintain since the entire exterior is completely seamless and smooth.

UF TOILET SEATS

Our Premium Toilet range has seat covers made of UF (Urea-Formaldehyde). Compared to conventional PP (Polypropylene) seat covers, UF seat covers are high quality and scratch-resistant. UF seat covers are easy to clean and do not lose their shine even after years of use. All our UF seat covers are produced with EPA registered resins, able to hamper the growth of germs and bacteria.

'QUICK-RELEASE' TOILET SEATS

All Aquant UF seat covers have a 'Quick-Release' function and can easily be detached and reattached, which makes the process of deep cleaning the toilet very easy.

'SOFT-CLOSE' TOILET SEATS

All Aquant toilet seats are 'Soft-Close', a practical and quiet alternative to traditional toilet seats. Soft-Close toilet seats are a must for households with small children, allowing them to use the toilet with ease without the risk of fingers getting trapped by a heavy seat.

SANITARYWARE IN SPECIAL FINISHES

With a demand for more personalized design, the trend of sanitaryware in special finishes is dominating bathroom design across the world. Subdued, organic, and neutral tones such as Matt Grey, Matt Black, Matt Mint, and Matt Cashmere add warmth and depth to any design scheme. Bold special finishes such as Gold, Rose Gold, Platinum, and Crocodile Leather Black add a unique character and luxury to the bathroom or powder room.

ROSE GOLD & BLACK

The latest addition to our range of Special Finishes in Ceramic Wash Basins & WC's is a stunning combination of the subtle luxury of **Rose Gold** with the noir richness of **Black**. Perfect for creating a wow-factor to any bathroom or powder room.

MATT GREY

Matt Grey is a sophisticated and modern option that offers a great contrast to natural tiles and lighter hues. Many designers and passionate homeowners have shown great interest in playing with the juxtaposition of this finish since it complements the current design thinking in the bathroom or powder room.

CROCODILE LEATHER FINISH

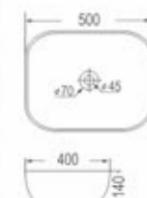

The lavish 'Leather' finish is inspired by the texture of luxurious crocodile-finish luxury lifestyle items. The addition of the texture on Black Ceramic adds an elegant element to the collection. The overall glossy finish of these best-selling washbasins and toilets make them very easy to maintain.

MATT MINT

We create finishes that don't just complement the room but stay true to the overall sense of style one is looking to create. Matt Mint is our first addition in pastel shades which are inspired by organic colours observed in nature. The soothing finish of Sanitaryware in this range add a sense of tranquillity to your bathrooms or powder rooms.

MATT CASHMERE

Inspired by the light creamy caramel colour of luxurious Cashmere wool, the Matt Cashmere finish has a hint of orange undertones that lends a sense of warmth to any bathroom design. The elegant satin finish of wash basins and toilets in this range is very pleasant to touch and easy to maintain.

Ash Grey is a newly added finish that has smoky hues and a cool undertone compared to other finishes in our collection that have warm undertones. This pale grey is a great alternative to the traditional glossy white sanitary ware finish and pairs very well with brighter, more vibrant colours in the bathroom.

MARBLE FINISHES

The latest technology allows us to create the matt look of natural Marble on Ceramic washbasins & toilets. The typical nuances of color and veining patterns are replicated on ceramic to create the beautiful look of marble at a fraction of the cost! Enhance the look of your powder rooms or dining areas by choosing from this range.

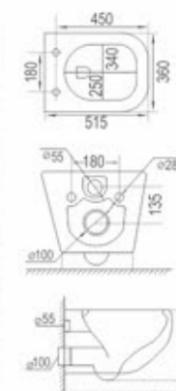

Thanks to the contrast between the intense black color and the luminosity of white veins, washbasins and toilets made in Nero Marquina Marble Finish are absolutely marvelous. Sanitary ware in **Nero Marquina Marble Finish** is used in contrast with decors which feature white marbles such as Statuario & Carrara.

As global trends have moved towards white/grey colored natural stones, the **Statuario Marble Finish** is our latest addition to our ceramic sanitary ware range. The finish replicates the exclusive stone which has a pure white background and dramatic, gorgeous grey veining in a striking pattern.

LARGE CERAMIC WASH BASINS

Since washbasins are the most habitually used items in the bathroom, we aim to combine maximum functionality with unmatched design aesthetics to suit your interior design. Our latest collection of large wash basins is based on a theme of soft minimalism. Strong, simple lines are beautifully balanced by soft, sculptural edges.

Bathroom
Fixtures Collection

BATH FITTING COLLECTION 2023

The search for new approaches and interpretations for bathroom configuration has led to the creation of our Bathroom Fixture Collection. Make a strong and prestigious design statement in your bathroom design, combining exquisite style with high-quality innovative technology. The latest creations of Aquant have revolutionized traditional conceptions. Each product is unique due to the expression of the values of research, creativity, and functionality.

The Aquant Bath Fixture Collection offers you a wide variety of products that will allow you to enjoy pleasant moments thanks to the revitalizing energy of water. For each situation, a specific product; whether you prefer a relaxing experience of the senses or a powerful shower that brings you vitality. Simply choose the products you need and become inspired with the meditative qualities of a gentle rain or a roaring waterfall. Reward yourself by creating a personal space that makes a clear and confident statement with a collection that exudes luxury, quality, and design excellence.

FAUCETS IN SPECIAL FINISHES

PVD (Physical Vapor Deposition) uses a state-of-the-art process that molecularly bonds the finish to the faucet creating the most durable finish available today. Products with PVD finish will not corrode, discolour, or tarnish. Aquant's core collection of faucets in special finishes is comprised of 4 popular finishes - Graphite Grey, Rose Gold, Brushed Gold, & Matt Black.

SENSATION Y SERIES

Flow Type : Revolve | Item code : 5009

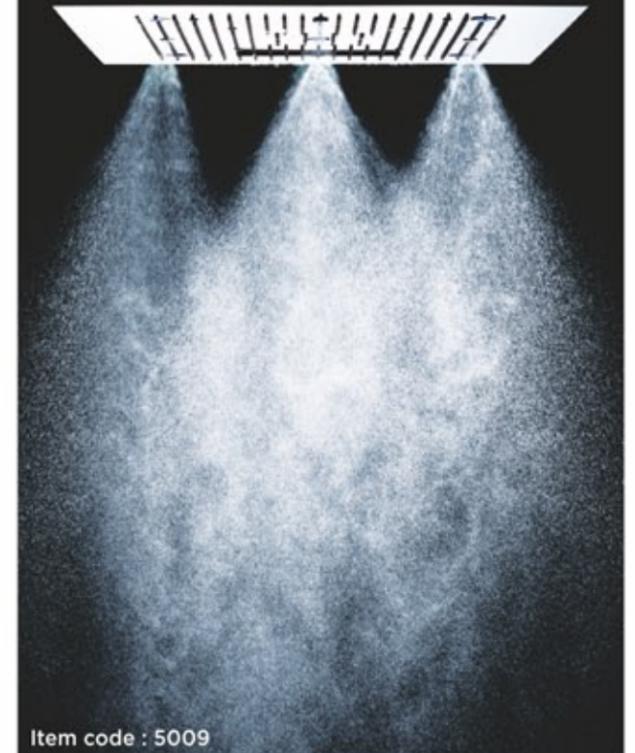

Chromotherapy is a natural therapeutic process with ancient origins, which uses color to help the body and mind find natural balance. Enjoying a color shower is much more than cleansing the body; the colorful rays radiate you for a given time, fusing the benefits of water with the properties of light and color.

SENSATION Z SERIES

The shower interpreted by Aquant is a haven of pleasure because of the senses it transmits, both from a functional and aesthetic perspective. The technology applied to the shower presents showering with multiple functions such as Rain, Cascade, & Mist, thus enabling the product to meet what you need in every moment of the day.

WATERFALL SHOWER/ SPOUT SERIES

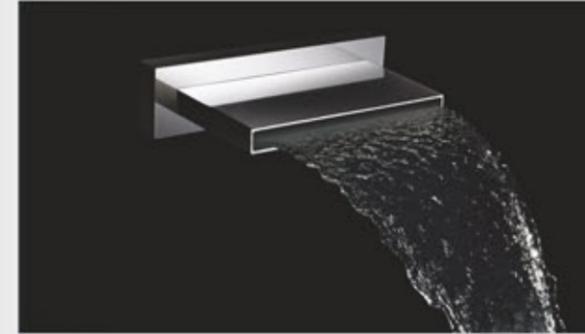

Flow Type : Waterfall | Item code : 1485

Flow Type : Waterfall | Item code : 1414

Aquant Waterfall Showers create a showering experience similar to standing under a curved waterfall, allowing a wide stream of water to flow, warming and soothing the entire body for long-lasting relaxation. These showers target muscle groups such as the neck and shoulders which cannot be reached by body sprays.

BODY SHOWER SERIES

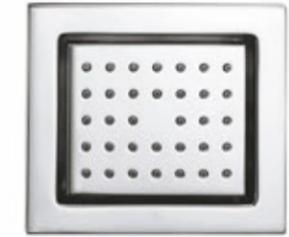

ABS Body Shower | Item code : 1499

Body Showers, when compared to Body Jets, have a larger diameter of 4 inches and deliver a higher volume of water to create an invigorating hydrotherapy experience. Body Showers are usually flushed to the wall and can be adjusted. Body Showers provide a much softer massage compared to Body Jets and are recommended for daily showering.

RAIN SHOWER SERIES

Flow Type : Rain | Item code : 4007

The size of a showerhead is proportional to the pleasure experienced under the shower. The bigger the shower, the greater will be the rain shower experience. A more effective water distribution is achieved with equivalent water consumption, enveloping the entire body with water.

POWDER FLOW WATER-SAVING SHOWERS

Flow Type : Powder Flow | Item code : 28187

Powder Flow is achieved through special nozzles that enable micro-sized droplet jets. Individual nozzles have four fine exit-points (instead of just one) which divide up the flow of water, making the water flow much more delicate compared to regular shower-heads. Thousands of ultra-fine droplets envelop the body, over a large area.

Brass Hand Shower with Powder Flow

ABS MULTI-FUNCTION SHOWERS

ABS (Acrylonitrile Butadiene Styrene) is a sturdy thermoplastic polymer which is resistant to strong impacts and is free of toxins. Our basic ABS shower heads can be either overhead or handheld. These showers are typically cost-effective and easy to install - you can simply replace your existing showerhead or hand shower without the assistance of a plumber.

KITCHEN SINK MIXERS

Item code : 2567 CP

Our Kitchen faucet collection combines precision, technology & functionality with impeccable style, suitable for distinguished spaces and modern kitchens. We have recently added Sink Mixers in three brilliant finishes - Graphite Grey, Brushed Gold, and Brushed Stainless Steel. Explore our collection of different types of Kitchen faucets and choose one which suits your requirement.

KITCHEN SINK MIXERS IN SPECIAL FINISHES

item code 2567 GG - Graphite Grey ■ item code 2567 BG - Brushed Gold ■
Brass Pull-Out Table-Mounted Sink Mixer
Flows : Shower and Foam

item code 2091
Stainless Steel Matt-Finish
Adjustable Sink Mixer

item code 2006
Stainless Steel Wall Mounted
Matt-Finish Adjustable Sink Mixer

This sink mixer combines state of the art design and workmanship. The faucet has a unique 3 way inlet system; a separate line allows for your filtered water to be selected without interfering with the regular hot and cold water, giving you the choice between hot & cold water from your mains, and cold & ambient fresh filtered water from your filtration system (typically installed under your sink, thus saving space!).

This faucet will add elegance, functionality and performance to your kitchen.

SHOWER PANEL SERIES

Item code : 1256

Fantastic advances in shower design and function provide the catalyst for our shower panels. Each shower panel has up to four functions: rain shower, waterfall shower, body jets and button-spout with hand shower. You may enjoy the pleasure of the combined use of two or more functions since all functions can be operated individually as well as simultaneously.

THERMOSTATIC SHOWER PANELS

Eden

item code 1256
Size - 1540 x 180 mm

-  Rain
-  Waterfall
-  Body Jets
-  Hand Shower
-  Spout
-  Rub-it Clean
-  Vernet Thermostatic System

Revive

item code 1258
Size - 1420 x 180 mm

-  Rain
-  Waterfall
-  Body Jets
-  Hand Shower
-  Spout
-  Rub-it Clean
-  Vernet Thermostatic System

Eden, made of 304 grade stainless steel, has a unique irregular grain metallic finish. All functions can be operated individually as well as simultaneously. Eden has a Thermostatic system that offers the advantage of maintaining a pre-selected constant water temperature thanks to the synchronization of the command button with the cartridge.

Thanks to innovative Thermostatic technology, Revive allows you to enjoy water at a constant temperature, providing reliable protection against scorching hot surprises, offering comfort and safety to everyone. Revive is made from 304-Grade Stainless Steel with all functions operated individually.

To ensure your Aquant product performs and gives many years of use, please follow our cleaning & care recommendations carefully, as any damages resulting from poor maintenance are not covered under the warranty. Our care instructions are mentioned in our warranty card. You can also use the following link to view comprehensive maintenance guidelines: www.aquantindia.com/cleaning-maintenance-guide/

CARE INSTRUCTIONS

Care & Maintenance - An Overview

- To ensure your Aquant product performs and gives many years of use, please follow these recommendations carefully, as any damages resulting from poor maintenance are not covered under the warranty.
- Most products can be cleaned with warm water, a mild soap and a clean, soft cloth.
- It is not required to use any abrasive cleaning pads, wire wool or micro-fibre cloths to clean the product. Avoid a vigorous cleaning action.
- Abrasive or strong cleaning products containing ammonia, bleaches, alcohol, dyes, acids (hydrochloric, formic, phosphorus, chlorine or acetic) will be detrimental to the product finish.
- If using a spray cleaner, apply the cleaning agent onto a soft cloth, never directly spray onto the product as the cleaner may enter gaps and openings and cause damage.
- Residues of toiletries such as liquid soaps, shower gels, shampoos, hair dyes, perfumes, lipstick, after shave and nail varnish can also cause damage, carefully clean these using the methods above.
- If a specialized cleaner is required, always follow the instructions provided on the cleaning product, this would include application and dosage.
- Always test the cleaning agent on an inconspicuous area before applying to the whole surface, do not allow the cleaner to remain on the product for an extended period. After cleaning, rinse thoroughly with clean water.
- We would not recommend the mixing of different cleaning agents. After cleaning, dry with a soft cloth.

Caring for Chrome, PVD & other Special Finishes

- The ideal cleaning technique is to always blot dry any water from metal surfaces. Allowing water to evaporate on metal will form water deposits. It is important to use a dabbing action to dry metal, not a rubbing action. Cleaning with a damp sponge and buff drying should keep your faucet looking beautiful.
- Most toilet cleaning products have high acidic content which can damage the finish; hence they should not be used to clean chrome finishes or PVD Finishes.
- If limescale has built up on your product do not attempt to chip this off as this could damage the protective lacquer and lead to further damage. Several applications of lemon juice (not a concentrate) or white vinegar, followed by a thorough rinsing with clean water will slowly help to remove it.

Caring for Artisanal Wash Basins & Special-Finish Ceramic Sanitaryware

- Do not place the product outdoors or in direct exposure to sun light.
- Stainless-steel may discolour if left in contact with salts or acids for extended periods.
- Residues of toiletries such as liquid soaps, shower gels, shampoos, hair dyes, perfumes, lipstick, after shave and nail varnish can also cause damage if not wiped up right away, this can allow the acids to react and eat away at the calcium carbonate in stone wash basins, creating permanent markings.
- Wherever Rose Gold/ Gold/ Silver/ Matt Finishes/ Marble Finishes or any other type of special finishes are used on ceramic products, use only warm water to clean and then dry with a soft cloth. Ensure that specialized cleaners are only applied to the specific area and do not meet other materials that could be affected by it.
- If you wish to use common cleaning products on Toilets with Rose Gold/ Gold/ Silver/ Matt Finishes, dilute the cleaning product with water. Do not allow the cleaning product to sit on the product, rinse immediately. Restrict use of cleaning product to only the inside of the toilet bowl and DO NOT allow the cleaning product to have contact with external surface finishes or the toilet seat. DO NOT use such cleaners on Wash Basins.
