The following procedures are followed while fixing CAPSTONA natural glass mosaics.

1. All wall surfaces must be smooth, even, dry, cured and free from dirt.
2. Ensure that plaster of the surface to be cladded is bounded firmly to the sub-structure. Without having any hollowness. Also, it is to be ensured that the surface to be clad is firm and capable of withstanding additional load of mosaics & Grout to be applied.
3. Apply mosaic sheet with the back mounted net facing the wall, dab the mosaic sheet firmly with a rubber towel to ensure adequate adhesion.
4. Spacing between sheet must be same as between the individual mosaic tesserae.
5. Allow mosaic to set for 24 hours.
6. Grouting (color as per your designer)
7. Clean the mosaic with a damp sponge thoroughly in vertical or horizontal direction.
8. Ensure that the sponge remains flat to the surface and does not remove too much of grout from joints.
9. After drying the grouted surface, wash with mild acid (5% HCL in water)

CAPSTONA with your co-operation hereby take pleasure in introducing to you the “CAPSTONA MOSAICI DE VETRO” Glass mosaic.

We Assure you the same level of commitment and promise you world class quality which we have been practicing for our stone products and now we commit for Glass as well.

Anticipating your support and co-operation. We promise to introduce to your more such innovations on the same verticals to make your world a better place to live.

Thankyou
for your trust

SPECIFICATION

CHIP SIZE	10X10mm	15x15mm	20x20mm	50x50mm
TILE SIZE	318x318mm	327x327mm	327x327mm	315x315mm
SHEETS/BOX	20 Nos.	20 Nos.	20 Nos.	15 Nos.

Technical Properties:

WATER ABSORPTION: NONE
THERMAL SHOCK:RESISTANT
CHEMICAL ATTACK:RESISTANT
COLOURS RESISTANT TO FADING:RESITANT

FEATURES:

ANTI-DUST, WASHABLE AND NEVER FADING
ACID-PROOF, ALKALI-PROOF AND DURABLE
COLORFUL, ELEGANT AND STYLISH

USAGE OF GLASS MOSAIC:
FIT FOR BUILDING'S INTERIOR AND EXTERIOR WALL
DECORATION, SWIMMING POOL, BATHROOM, KITCHEN, AND FURNITURE WORKS

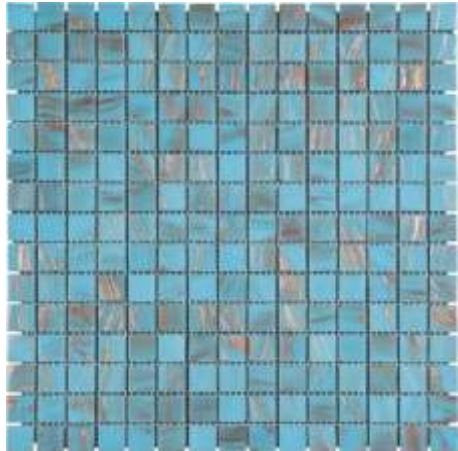

ACTUAL GOODS HAVING SLIGHT VARIATIONS FROM SAMPLES ARE
ADHERENT CHARACTERISTICS OF ALL FIRED GLASS MOSAIC.
